Our Microsoft Solutions Expertise

Security

- Advanced threat protection
- Data protection and compliance
- Copilot readiness with secure data governance

Data and AI

- Microsoft Fabric for unified analytics
- Azure cloud services for smarter insights
- Governance first approach for AI adoption

Modern Work and AI

- Unified Endpoint Management
- Teams and SharePoint governance for secure collaboration
- Zero Trust access controls for hybrid work

From Complexity to Clarity

Microsoft 365 Enablement
Made Easy

01. Kick-Off Consultation

We start with a quick, focused review of your Microsoft 365 setup, pinpointing inefficiencies, uncovering security gaps, and identifying opportunities to boot productivity.

02. Tailored Solutions

No one-size-fits-all approach here. We design Microsoft 365 configurations that perfectly align with your business goals, security standards, and collaboration needs.

03. Seamless Deployment. Leave It to Us.

No complexity, no downtime, just a streamlined, secure M365 environment. Our team handles everything, from deploying upgrades, tightening security, and introducing smart automations, so your workflows run smoother, and your data stays protected.

04. End-to-End Management and Transparent Insights

We go beyond the setup. With ongoing care, regular health checks, proactive security updates, and detailed reporting, your Microsoft 365 environment stays optimised and worry-free.

Get in touch

Contact us to request a M365 assessment, or talk with one of our expert consultants to learn more.

Who are we

Virtual IT Group is Australia and New Zealand's leading managed IT and cybersecurity provider. We serve as the strategic technology partner that organisations need in today's threat landscape, combining reliable IT and cloud management with expert cybersecurity protection, remediation and compliance across all sectors.

With scale, reach, proven expertise, we deliver end-to-end managed services for infrastructure as well as security, cloud transformation, and modern workplace solutions that keep organisations productive, resilient, and secure – real cyber solutions for today's complex cyber reality.

We are also specialist experts in navigating complex regulatory environments across finance, healthcare, legal, construction, NFP, and manufacturing.
